# IT Solutions for Enterprises
Custom fit solutions for an off-the-rack price.

Fire your vendors. Hire a strategic partner.
Calance prides itself on being a partner rather than just another vendor. To us, being a partner means understanding your business objectives, not just your technology environment. By doing this we can offer customizable service bundles that meet your evolving business needs.

Round-the-Clock Support
24x7x365 support to maximize efficiency and flexibility.

Global Resources
Hybrid options for on-shore and off-shore support.

Top Technology Partners

ARCTIC WOLF   CROWDSTRIKE   vmware   Microsoft   Google Cloud   aws   SAP   solarwinds

IT Consulting
Helping organizations of all shapes and sizes find IT consultants and technology experts needed to deliver projects and improve IT operations.

Infrastructure & Operations
Providing mid-size enterprises with a collection of ongoing IT Infrastructure & Operation services including Help Desk, Desktop Support, Management of End User Computing, Systems Engineering, Network Engineering, Exchange and O365, Network Operations Center (NOC), Voice Solutions, Backup & Disaster Recovery, and Hyper Converged Infrastructure (HCI).

Security Solutions
Helping improve security posture by providing solutions and services that move beyond the basics of traditional anti-virus and firewall solutions. Calance provides MD&R, Vulnerability Assessments, Next Gen Endpoint Protection, Phishing Simulation, Security Awareness Training, PAM, and IAM solutions. We've partnered with best-in-class providers for proven solutions.

Web & Mobile App Development
Application development from idea to implementation to ongoing maintenance and support. Whether automating an internal process or using technology to improve customer engagement, Calance brings the methods, technical know-hows, and resources needed to build unique applications.

SAP
Specializing in SAP Basis and SAP Integration (Process Integration – PI)

SharePoint
Helping with Upgrades & Migrations, Ongoing Site Administration, Maintenance & Support, and App Development. Calance focuses on improving ROI by reducing ongoing operations and support costs, enhancing the functionality and value of SharePoint based solutions, and driving user adoption.

Artificial Intelligence (AI)
Helping develop and leverage insights to improve business outcomes with Calance's open AnalytX AI platform and trained Data Science, API and App Integration professionals. Specializing in helping use Machine Learning and Deep Learning techniques to build and deploy custom AI models.

Project Controls Integration
Helping Owners and Contractors manage and control spending on capital construction projects by with system integrations. These integrations sync, in near-real time, data in project management and accounting systems.
